Bloody Affray in Kansas. It will be seen from our telegraph report that Border-Ruffianism is once more rempant in Kanmeasures, one of the bandits threatened his life, grossly insulted him in the publicatreet, and theu,

Price.

The bill for a "Rotary" Supreme Court—to wish his backers, undertook to put down by force a public meating called to protest against these renewed outrages. A bloody alray ensued, in which the aggressor was shot dead. Greaf exi citement prevailed at Lecompton, at the last ac counts, and further trouble was apprehended.

Mr. Janesen's Defalcation. The Legislature, we observe, is still busying itsel, and carious expedients to relieve Mr. Jans. BEH and his bail, from the penalties inch by malfeasance, or neglect of duty, on the part of that officer. This is all wrong. Let the law to ke its course and let Mr. Janesian make good, if he can, by legal evidence, the facts set forth in his petition for relief. It will be time enough to interfere when it is shown that he was no wise in fault and that his bail are not legally liable .--To do so before, is to set a very mischievous precedent.

Admission of Minesota

The United States Senate on Wednesday, up on a "sober, second thought," and at the in stance of Mr. HALE, of New Hampshire, re-considered its unwise action on the bill for the admission of Minesota into the Union; struck out, 32 to 24, the amendment restricting the right of enfirage to citizens of the U.S. and then passed the bill, precisely as it came up from the House of Representatives. The act will doubtless re-bills to-day. There is such a constant taking up serve the signature of the President, and we may, of bills out of their order, or hunting for them therefore, congratulate our Minesota neighbours upon the prospect of their speedy admission into ily, MIRESOTA will, of course, for a while, be the general pet, but OREGON threatens to put most important will fail, for want of time. her nose out of joint, very shortly, and KANSAS will do the like favor for Oargon. Our own peerless State, Wisconsin -- so recently the juhard mem-will soon be classed among the older members, but must always be considered the beauty of the family.

THE SUS-MARINE TELEGRAPH .- Both Houses of Congress have passed the bill, appropriating \$70,000 a year, for ten years, in aid of the Atlantic Telegraph: Great Britain had already made a similar appropriation, and there is now good reason to hope that within the coming summer the electric wire will be successfully laid along the bottom of the Atlantic and bring London and New York, England and America, within speaking distance.

SPANISH SILVER COIN --- The President has approved the bill, in relation to Spanish and Mexican Silver money. As it provides that this currency shall be received at the U. S. Mint, during the next two years, at its present nominal value, there is no longer any reason why Spanish quarters, shillings and six-pences should not be taken at their lace:

CABINET RUMORS.—The New York papers the 21st instant publish the following "latest reports" in regard to the Cablinet. They are confirmatory of provious rumors on the same sub-

icet: Washington, Feb. 20.

Hon. J. Glancy Jones has written to Mr. Buchanan, requesting him not to place him in the Cabinet: He did so in consequence of opposition in vertain qualters in Pennsylvania, and in order to relieve the President elect from any embarrassment on the subject.

14-is stated among the friends of General Case
that he to-day received a letter from Mr. Huchanan formally tendering bim the appointment of Secretary of State.

There seems no reason to doubt that the list

published in the Sentingle squie days since-CASS, FLOTE, TOUGET, BROWN, JUNES, CORB and of the rules to take up a bill, striking out TROWPSON-is the one agreed upon, with the from the bill recently passed, "authorizing the single change of Dr. ALEXANDER of New Jer- Chicago, St. Paul & Fond du Lac R. of Negro Emancipation in that State, give hope prepared with great care for the purpose of preand in the Missouri Legislature, upon the subject ful promise that the opecration of natural cauacs will in a very lew years, rid Missouri of the blight which checks her growth and tarnishes her escutcheon. The German papers of St. Louis | built by private means. This was agreed to by are earnestly collisted in the cause, and one or two of the English papers hold similar views.-The Intelligencer of the 28d instant has an arti cle on the subject from which we take one or two extracts:

HEMOVAL OF SLAVERY FROM MISSOURI,-TI recent demonstrations in Missouri on the Emin-cipation question, have produced a prodigious cities in the Northern and Eastern States. They effect in the Northern and Eastern States. They are understood to betoken the sure and speedy extinction of slavery in Missouri. Madison; Feburary 25. The Senate passed 57 bills in all yesterday. This morning, in Senate, but little progress was made. Among the few pills passed was one for a vote of the people of La Pointe County on place called Bayfield.

> One of the special orders Mr. Clark's Swamp Land Bill, which proposes to put the lands all in market at \$1,25 per acre, on the same general principles as the school lands-occupied the greater portion of the morning session. Mr. Clark supported it in a very carnest speech. He was answered as carneatly, by Messrs. Harvey and lean, who argued against the policy of so reducing the price, though they were willing to comaromine at \$9,50 per acre. They both referred to the fact that by the system of disposing of the school lands, the State had wantonly wasted millions that is ought to have bad in its school fund -to the fact that the speculators who were crying out now that these lands were not worth \$1,25 per acre, would charge more than double that price for part of them the moment they got posession—and hold the rest at a still higher price. The pressure of the speculators upon the Legmlature is tremendous, and the probability is that

land questions seem to turn the heads of most copie. The bill was under discussion all the afternoon, and numerous amendments offered, and some

THE ASSEMBLY HAS A BACKBONE. Under the influence of a speech from Dr. Cameron, the Assembly determined that it wouldn't suspend the rules to take up bills out of their order, and kept to its resolution at least. 10 minutes, when Fred. Horn moved to take up a certain bill, saying that "it wouldn't take a minute to dispose of it." The Assembly consent-

And Fred, immediately moved to substitute for the bill thus taken up, another providing that the Governor shall appoint three Commissioners, who, sitting at Mr. Janesen's expense shall examine as to whether Mr. J. appropriated any of the money to his own use-whether the sureties can be held,-and whether it is the best policy for the state to release Janssen ;—if they say it is, then the Governor may release him from his liabilities.

And then followed a long discussion. Mr. Howe, after some remarks impressing upon the Republicans the evident policy of the democrats to put them in a false position on this subject, by getting them to release Jansson, and then charging that all their eries about corruption and atealing of state funds were for Boncombe, moved to table the bill. Lost.

Mr. Horn urged the passage of the bill. Moses M. Strong repudiated the idea that this was a party, question. Mr. Reymert thought the distingtion of the Republican party was its sym pathy with the oppressed.

Mr. Hutchinson spoke carnestly against bill, mentioning that every paper, of both partics, bad endorsed the action of the Assembly the other day. Mr. Mills epoke as energetically

CLARIE, Esq., Milwaukee. feb24, e289-198msp THE ONLY MEDAL AWARDED BY THE NEW YORK EXHIBITION to the English of Foreign Sauce Manufacturers has been obtained, amongst numerous competitors, by LEA & PERRINS, for their Worcestershire Sauce, Whereby further [testimony is afforded of its being the

best Sauce extant.

The celebrity of this Sauce has extended to every quanter of the globe, and its efficacy in promoting the gen eral health is becoming daily more lobserved and acknowledged. In the United States it is held to be the most agreeable condiment, and is esteemed for its tonic and invigorating properties, its habitual use enabling the stomach to di-

gest the food.
On the Continent of Europe, these qualities have been testified to by a gentleman who writes to LEA & PER-RINS thus :- "I have carried a bottle of your Worcestershire Sauce in a tour I have just completed through Spain and Portugal, and believe I owe my present state of health to its use; your Sauce is stomachic, and think medicinal. I can with truth say there is nothing in a traveller's baggage so essential to his comfort, at least

in these countries, as your Sauce."

In India, also, where it is found at the mess of every regiment, a medical genticman writes from Madras to his brother in the same profession at Worcester, in the following terms:—"Tell Lea & Perrins that their sauce is highly approved in India, and that it is in my opini the most palatable as well as the most wholesome sauce made "

This Sauce is suitable for every variety of dish, an the universal demand which its excellence has created, hasied to many imitations being offered to the public, uider a variety of names, but the genuine may be known by the names of "LEA & PERRINS" being impressed upon the patent metallic capsules, or patent glass stop per of the bottle, as well as the labels and wrapper. CIRCUIT COURT, FEB. 26. HON, A. W. RANDALL PRESIDING.

.. The case of the State vs. Pe'er Yates was suddenly brought to a close. The jury after being out a few min utes returned a verdict of not guilty, and the defendant as well as the jury were discharge? The case was simply this: -Yates was indicted for ora-ating and maintaining a nulsance in the Milwaukee

hiver, at or upon a part previously navigable. The proshowed that the defendant had but continued a nuisance which another had created, and that at the time Yates drove the piles. Ac., which is the permanent obstruction the city had thrown up a bank of dirt dredged from the bed of the river, and upon this bank of earth "Peter" had built his dock, and the indictment need not prevail

Several parties who had been indicted were brought up two at a time, a long time clapsing between the times, causing some one to remark that they were perhaps catching them, and arraigned upon the indiciments. They were as follows: Joel Soper, larceny on the 1st February 1887, pleaded

ces, Dec. 1st, 1956, pleaded not guilty. Thomas O'Donnell, alias Erin Go Braugh, stealing barrel of flour, plended not guilty.
" Have you any Counsel!" anguired the District At

Prisoner-"Yes sir, I have Major Fut engaged." The prisoner was taken back to jail.

John Strets, for horse stealing, pleaded guilty, and was sentenced to three years in the State Prison—the first ten

days to be solitary confinement.

John Clancy and Mary Clancy, man and wife, for larceny in a dwelling house, both pleaded not guilty. eter Kane, for having counterfelt money in poster with intent to utter the same, plead not gu'lty.

Henry Bhode, a small boy, ladicted for larceny le hop, stealing a dollar bill, plead not guilty.
2 P. M.—The Court enquired of the District Attorney i he had any criminal trial rendy, and was answered in the egative, stating that he would be ready with one this morning, (27th).

The petit jury were then discharged for the afternoon being notified by the Court to be in attendance at 2 o' clock this morning.

The Court also stated, as a notice to the bar, that during any interval in which there was no criminal trial ready he would try civil easts, where the parties content. d-otherwise they would not be taken up until the Orlin ant Calendar was disposed of.
